

SPECIAL MACHINERY I TRACK ROTARY TILLER RX230

LOVOL

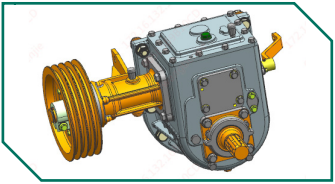

PRODUCT INTRODUCTION

RX230 is a crawler rotary tiller with rich functions, efficient operation and convenient operation, which can realize multi-functional expanded applications such as paddy field beating, sloping and other complex terrain tillage, and soil crushing.

Famous 102-horsepower engine + Lovol's homemade R100S dual-fork gearbox + famous 45cc HST, three mature parts are efficient and reliable

Equipped with two-speed PTO power output (650/850), agricultural machinery has a wider application range and can be used in both floods and droughts

550 * 56 high-flower tracks + 410 mm ground clearance, high passability, easy to handle muddy fields

3 groups of 6-way hydraulic output valves, which can be matched with side plows, levelers and other agricultural machinery, one machine can be used for multiple purposes, increasing income

TECHNICAL PARAMETERS

Model	RX230
Complete machine size (mm)	3615×2575×2075
Cab type	Semi-enclosed cab
Engine (horsepower)	102 (triple power curve)
Drive axle	Lovol R100S dual fork gearbox
Continuously variable transmission	45HST
Gear train form	Horseback
Track (mm)	500/550 × 90 × 56 ultra-high flower
Minimum ground clearance (mm)	410
Gauge (mm)	1250
Steering	Mechanical steering
manipulate	One-shot maneuver
Suspension	Three-point suspension
Strong pressure	Standard
Power output	Two-speed PTO (650/850)
Rotary tillage width (m)	2.3
Rotary tiller model	IT195
Number of Rotary Tillers	98
Function options	Rotary tiller self-balancing, field leveler, bulldozer, trencher, fertilizer box
