

AGRICULTURAL MACHINERY I SQUARE BALER

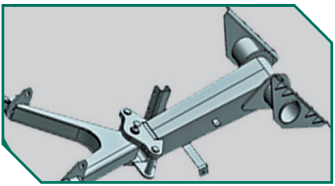

LOVOL

Heavy-duty knotter system

Dual-cam-disc pickup

Y-type double-joint drawbar

Knotter dust removal unit

TECHNICAL PARAMETERS

SPECIFICATIONS		UNIT	9YFD-1.9	9YF-2.2F
Dimension and weight	Dimension (LxWxH)	mm	4880x2550x1710	4880x2820x1710
	Total weight	kg	1580	1640
Pickup	Pickup width	mm	1972	2236
	Tooth bar quantity		4	4
	Tooth quantity		56	64
Feeding mechanism	Feeder tooth quantity		4	4
	Overload protection device		Safe shear bolt	Safe shear bolt
Piston	Rated reciprocating frequency	time/min	100	100
Bale chamber	Bale chamber cross-section	mm	440*360	440*360
	Bale length	mm	300-1320	300-1320
Matched power	Matched tractor power	hp	≥ 50	≥ 50
	PTO speed	r/min	540	540
Tyre	Model		10.00-15	10.00-15

PRODUCT INTRODUCTION

The Lovol Square Baler is a versatile, high-performance classic designed for baling various forages and straws. Featuring a symmetrical structure with center-mounted towing and an advanced 'double-hitch' drawbar, it achieves a tight turning radius and superior maneuverability for small-field operations. Equipped with heavy-duty knotters for stable and reliable performance, its exclusive dual-cam-disc technology ensures even force distribution on the pickup tine beam and rollers, delivering thorough pickup and extended service life.
